

minseg_M2V3_2017a.slx is the label of the Simulink model file. The label includes the label of the hardware which it represents as well as the version of the Mathworks Software Suite with which it was created. [*Using the model in a different version of the Simulink will require conversion; therefore, the two files will not be equivalent.*]

The Simulink model is hierarchical. The sections which follow will describe the model and will be similarly organized, as depicted in the extended-precision list of contents below.
